RESPIRATORY CARE

T50
VENTILATOR

Flexible respiratory support.
Clear information. Connected care.

ADULT + PEDIATRIC
Patient categories

INVASIVE + NIV
Ventilation options

TURBINE DRIVEN
Electric drive and control

Built for respiratory care

Large touch display, multiple ventilation modes and a mobile trolley configuration.

CONTROL & VISIBILITY

A clearer view of ventilation

Touchscreen control. Live waveforms. Dynamic lung visualization.

Information at a glance

Dynamic lung view presents ventilation status, respiratory parameters, resistance and compliance for clinician review.

Self-test and calibration functions with fault-code display.

Multiple care settings

Listed applications include ICU, emergency care, patient transfer and postoperative recovery.

Backup power

Up to 3 hours of battery operation, according to the supplied product information.

Trend & event review

96-hour trend graphs and storage for at least 3,000 event and alarm records.

Data connectivity

Ethernet, COM, HDMI and USB interfaces are listed for data exchange and integration.

CONFIGURATION MATTERS

Optional EtCO2 and SpO2 modules extend monitoring capabilities. Confirm installed interfaces, software and accessories when requesting your quotation.

MODES & CONFIGURATION

Specify the right configuration

Core capabilities and optional functions shown in the supplied product literature.

Patient categories	Adult and pediatric
Ventilation support	Invasive and non-invasive ventilation
Listed invasive modes	VCV, PCV, V-A/C, P-A/C, V-SIMV, P-SIMV, V-SIMV+PSV and CPAP/PSV
Listed NIV modes	PCV, P-A/C, P-SIMV, CPAP/PSV and Bip
Optional modes / functions	PRVC, APRV, P-SIMV+PSV, high-flow oxygen therapy and recruitment maneuver
Optional high-flow therapy	Oxygen concentration: 21-100% Maximum gas flow: 60 L/min
Data review	96-hour trends; at least 3,000 log/alarm records
Power backup	Up to 3 hours, subject to operating conditions
Optional monitoring	EtCO2 module; SpO2 module

Specifications reproduced from the supplied listing. Mode availability and options depend on the ordered configuration; confirm against the manufacturer's current datasheet and instructions for use. Product images may show optional accessories.
